

Feedback and Grading Rubric for Minimal Increment

team-name

	Score*	Comment
Rudimentary User Interface Present (text or graphical)		
Essential functionality present		
Demonstration of working application		
Amount of apparent effort		
Presentation quality and value to stakeholders		
Average		<p>Refer to the assignment and <u>speak to/demonstrate</u> what's asked for in the delivered increment. For Minimal this is:</p> <ul style="list-style-type: none"> • Minimize risk. • Prove out the architecture. • All remaining requirements are fleshed out. • Update the Project Plan. • Revise the Software Requirements Specification. • Continue the Design. • This can serve as a fallback position in case you can't get the target increment working properly • Capabilities delivered in minimal increment: • Rudimentary user interface (may be text based or graphical). • All essential functionality present in either working code or code stubs. • The demonstration video should show an actual working application <p>We expect a narrated video.</p> <p>Presenting code or code-walkthroughs are not appropriate for increments. Demonstrate working features and use tools from the project plan to convey status and corrective actions (schedule updates, risk plan, features to be implemented, etc.)</p>

*Score	Description	Grade equivalent
10	Outstanding. Exceeds expectations.	A+
9	Meets expectations.	A
8	Mostly meets expectations. Room for improvement.	B
7	Mostly misses expectations.	C
6	Poor.	F
